

Shining Star Therapy

Exceptional Kids Deserve Exceptional Services!

At Shining Star Therapy, LLC, we pride ourselves on the therapeutic services we provide to children from Early Intervention (0-3 years) to up to 12 years of age. We will match you with an experienced professional who will work with your child intensively in his or her own home, while teaching practical therapeutic strategies to the entire family. The services we provide include:

Physical Therapy

Shining Star's physical therapists will design your child a unique plan, tailored to his or her individual needs. We teach physical therapy practices to your child's entire support network to make sure your child has the best mobility, physical potential, and quality of life possible.

Occupational Therapy

Our occupational therapy techniques are rooted in functional play, sensory processing, fine motor strategies and daily living skills. The combination of fun and meaningful sensory activity means your child will stick with the process of achieving his or her goals.

Speech Therapy

Shining Star's speech therapists use a variety of cutting-edge approaches, working on skills that range from multi-sensory therapy and feeding techniques to oral-motor and speech & development strategies. We blend our knowledge and professional experience with a sense of creativity and fun.

Developmental Therapy

Our developmental therapists carefully monitor your child's progress during the critical early years in his/her life and strategically address any delays, processing difficulties, or behavioral issues that arise. We use play-based techniques to help your child interact functionally with his/her environment and move forward with confidence.

Family Counseling

To complement our extensive therapeutic services, we also offer family counseling by Licensed Clinical Professional Counselors (LCPCs). This empowers families with tested and proven tools and knowledge, and helps them handle the stressors that are common among families of special needs children. We want your child's entire support network to shine!

On top of our experience and professionalism, of course, is a genuine passion for children and a sense of fun. Help your child reach his or her full potential with Shining Star Therapy!

ABOUT SHINING STAR THERAPY

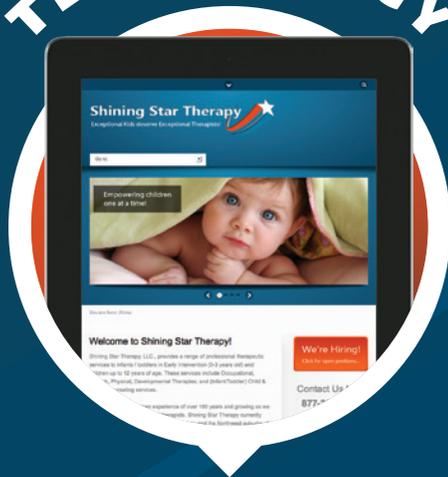

Shining Star Therapy, LLC., provides a range of professional therapeutic services to infants / toddlers in Early Intervention (0-3 years old) and children up to 12 years of age. These services include Occupational, Speech, Physical, Developmental Therapies; and (Infant/Toddler) Child & Family Counseling services.

Less time in paperwork,
**more time working
with children.**

With a combined clinician experience of over 100 years and growing as we consistently hire experienced therapists. Shining Star Therapy currently services seven counties in the Chicago area and the Northwest suburbs of Illinois.

Our team works with infants, toddlers and children right in their own play area where they feel safe, secure and familiar with their natural environment. This truly encourages each child to build upon his or her strengths as the therapist provides treatment techniques to help them to achieve individual therapy goals.

TECHNOLOGY

At Shining Star Therapy, we don't just value children; we also deeply value our therapists. We find that our therapists are able to perform their best work when they feel happy, supported, and free from bureaucratic paperwork. That's why we're committed to investing in the latest technology to help our therapists manage their notes and tasks efficiently so they can focus more of their energy on investing in children.
